ABSTRACT

Tables and graphs are presented summarizing the enrollment of students receiving Veterans Administration (VA) benefits at the Maricopa County Community College District from Fall 1972 through Fall 1980. The report provides Spring and Fall and day and evening enrollment figures for the district as a whole and for each of the six colleges in the district. An analysis of the data reveals that veteran enrollment began increasing in Spring 1973, was high from Spring 1976 through Spring 1977, and then began to decrease until it reached a low of 56,898 headcount enrollment and 26,637 full-time equivalent (FTE) enrollment in Spring 1980. Veteran enrollment accounted for approximately 9% of the district headcount and 11% of district FTE enrollment in Fall 1980. Headcount/FTE ratios were generally lower for veterans than for all students, reflecting the higher number of full-time students among veterans. Veterans accounted for 4% to 25% of the FTE student enrollment at the various colleges in the district. (AYC)

REPORT NO: 80-9

TITLE: Veteran Enrollment

PREPARED BY: Marilyn Bresler

DATE PREPARED: November, 1980

SOURCES: Computer reports S90027-1, 45th day data, veterans only; and the Factbook 1979 were used to prepare this report.

DATA DESCRIPTION AND SUMMARY: Veteran enrollment refers to those students who receive VA benefits.

The following tables and graphs summarize veteran enrollment data from the Fall 1972-73 semester.

Veteran enrollment began increasing in Spring 1972-73, was high from Spring 1975-76 through Spring 1976-77, and then began to decrease. Veteran enrollment accounted for approximately 9% of district headcount and 11% of district FTSE this semester, Fall 1980-81. Headcount/FTSE ratios are generally lower for veterans than for all students reflecting the higher number of full-time students among veterans.

At the colleges, veterans account for the following percents of total FTSE;

GCC - 16%
MTCC - 25%
MCC - 11%
PC - 8%
RSCC - 8%
SCC - 4%
